

Khibrah, an Integrated Expertise Platform

As access to judicial expertise services could take months, and sometimes requests are delayed due to traditional manual procedures...

We created Khibrah, an integrated platform that facilitates the access of beneficiaries to professional, specialized expertise, and gives experts a channel to monitor and organize their consulting services, with easy tracking and online payments.

Khibrah Features

Expert ratings, experiences, and fields to ease the selection process

Financial solutions that protect both parties

Access to experts in various disciplines

Document exchanges between experts and beneficiaries

Anticipated and provided expertise fields

Provide registration services

Full integration with various systems through API

Target Audience

Government Entities

Companies

Experts

Service gateway
