

مبادرة باقة رواد

Rowad Package Initiative

For entrepreneurs we pin our hopes on, for their unbound potential and unfolded capabilities

Rowad Initiative is a package designed to support small and medium-sized enterprises in verifying their individual customers' data, through electronic linkage with the National Information Center's databases in SDAIA to achieve the highest levels of security and reliability at a low cost. Rowad does not include providing financial loans to establishments.

Target Audience

Saudi Establishments
& Startups

Entrepreneurs
